Exploration cruise in SVALBARD aboard Leatsa

Spring-Summer 2021

EXPLORATION OF SVALBARD

At Longyearbyen, come on our sailboat Leatsa to discover the Svalbard. Answering the call of the Great North, you sail in the footsteps of these trappers, whalers and explorers who have marked its history.

Every day, you land at the front of a majestic glacier, at the base of a gypsum cliff or on a gentle shore chiseled by ice. Sometimes you put your foot on the pier of an old mining town, such as Pyramiden, Barentsburg or Ny-Ålesund. Lost at the end of the world, out of time, taste their "Soviet" atmosphere.

On land, you are accompanied by our polar guide, and discover a fascinating mineral world, as well as the endemic fauna and flora of Svalbard. It is also the archipelago of polar bears. Our guide is trained and armed to protect you from a possible encounter with this magnificent creature.

Returning from a simple stroll, or a long hike from midday sun to midnight sun, you find Leatsa welcoming, warm and cozy. Much more than a refuge, it's a real floating guest house!

WHY ABOARD A SAILING BOAT?

In Svalbard, only the sea allows you to get out of Longyearbyen: no road, no car, no train. For a better immersion in the Great North. Alone with Earth, Sea and Sky.

For the spirit of travel and adventure.

POLAR-SAILS

For enjoying the experience of a cruise on a Sailboat, just carried by the wind.

WHY ABOARD LEATSA?

For the privacy of a small group of 6 to 8 passengers maximum, accompanied by the captain, the mate and the polar guide.

For the quality of its cuisine, you won't stop talking about it.

For its saloon, a spacious area bathed in light, a cosy and friendly living space.

For its double cabins with real beds, duvets and pillows in natural fibers and en suite bathrooms including sink, shower and toilet.

For its bubble, real outdoor living room protected under a glass dome, which invites you to admire the sea, the land, the sky and its aurora borealis. Well protected under the bubble when the elements are raging around, it's exhilarating to be the privileged spectator of these games of sails, light, wind and waves.

For its exceptional quality of sailing, its reliability, its comfort and its specific preparation for cruises in the Great North.

For its French flag (RIF), a guarantee of quality and safety in the choice of its crew, equipment and procedures.
