

Summer-Fall 2022

#### HIKE & SAIL

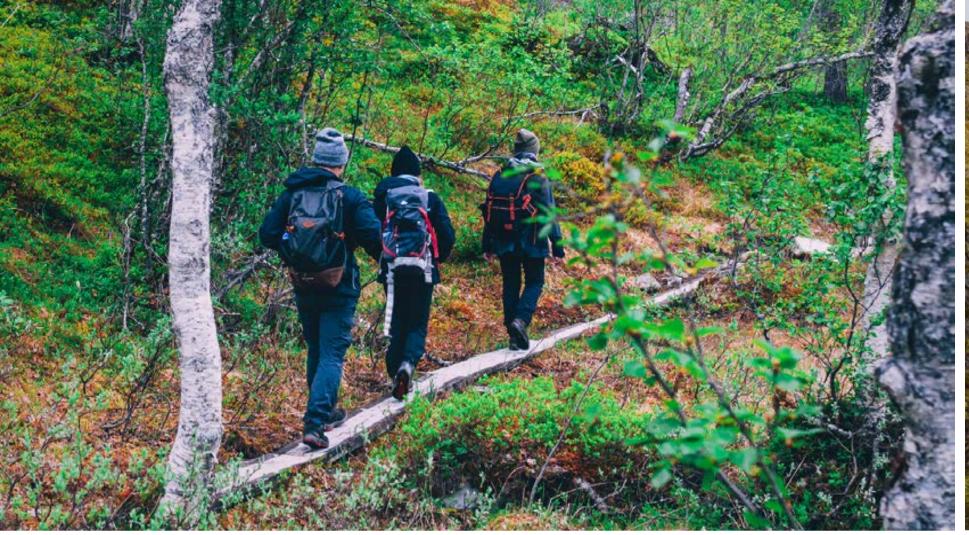

Our sailboat Leatsa takes you along the coast of Norway to discover its most beautiful Fjords.

Ancient valleys carved by glaciers, the Fjords now present great bodies of water surrounded by steep sides. Poetic, magical and astonishing landscapes, sceneries of pure beauty, they are natural treasures of the country.

Enjoy this adventure over 2000 km, from North to South, from Tromsø to Bergen, via Svolvær, Bodø, Ålesund, Florø and Sogndal.

Leatsa offers a coastal cruise where every day you can disembark on the shore for a simple stroll or a big hike. Sometimes you stop at the port of one of these countless small coastal towns.

When you return, you find Leatsa welcoming, warm and cozy. Much more than a refuge, it's a real floating guest house!

POLAR-SAILS

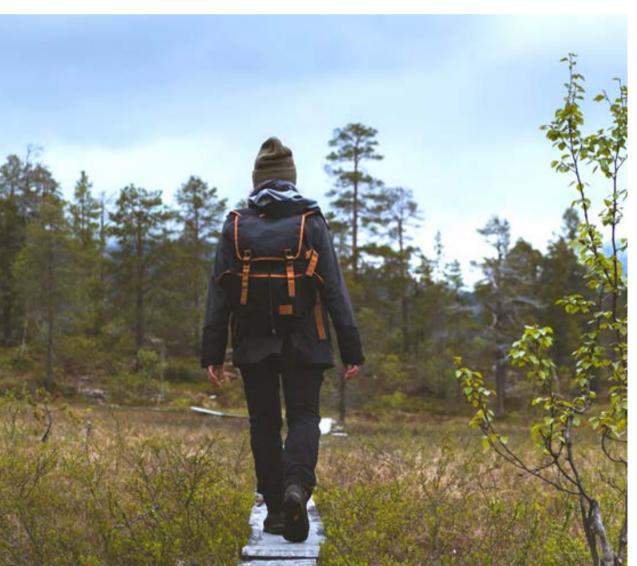

## WHY ABOARD A SAILING BOAT?

For discovering the Norwegian coast, its Fjords and wild islands. Treasures preserved and accessible only by the sea.

For enjoying the experience of a cruise on a Sailboat, just carried by the wind.

A better immersion in nature, without car, without neighbor, far from cities. Alone with Earth, Sea and Sky.

For the spirit of travel and adventure.

#### WHY ABOARD LEATSA?

For the privacy of a small group of 6 to 8 passengers maximum, accompanied by the captain and the mate.

For the quality of its cuisine, you won't stop talking about it.

For its saloon, a spacious area bathed in light, a cosy and friendly living space.

For its double cabins with real beds, duvets and pillows in natural fibers and en suite bathrooms including sink, shower and toilet.

For its bubble, real outdoor living room protected under a glass dome, which invites you to admire the sea, the land, the sky and its aurora borealis. Well protected under the bubble when the elements are raging around, it's exhilarating to be the privileged spectator of these games of sails, light, wind and waves.

For its exceptional quality of sailing, its reliability, its comfort and its specific preparation for cruises in the Great North.

For its French flag (RIF), a guarantee of quality and safety in the choice of its crew, equipment and procedures.
