

me on our sa

Come on our sailboat Leatsa and discover the most beautiful spots for Ski Touring in the north of Norway.

Beyond the Arctic Circle, the Troms county, the Lyngen Alps and the Svalbard offer you endless possibilities of gentle and steep slopes, glaciers and islands to cross.

Every day, according to the desires of the group and the weather, Leatsa drops you off at the base of the most wonderful snowy mountains.

With the help of a high mountain guide, you climb the mountain slopes up to the peaks, from 1000 to 1800 meters high.

During the downhill, you enjoy the powder snow and mark this wonderful memory of your ephemeral tracks.

When you return, you find Leatsa welcoming, warm and cozy. Much more than a refuge, it's a real floating guest house!

SKI & SAIL

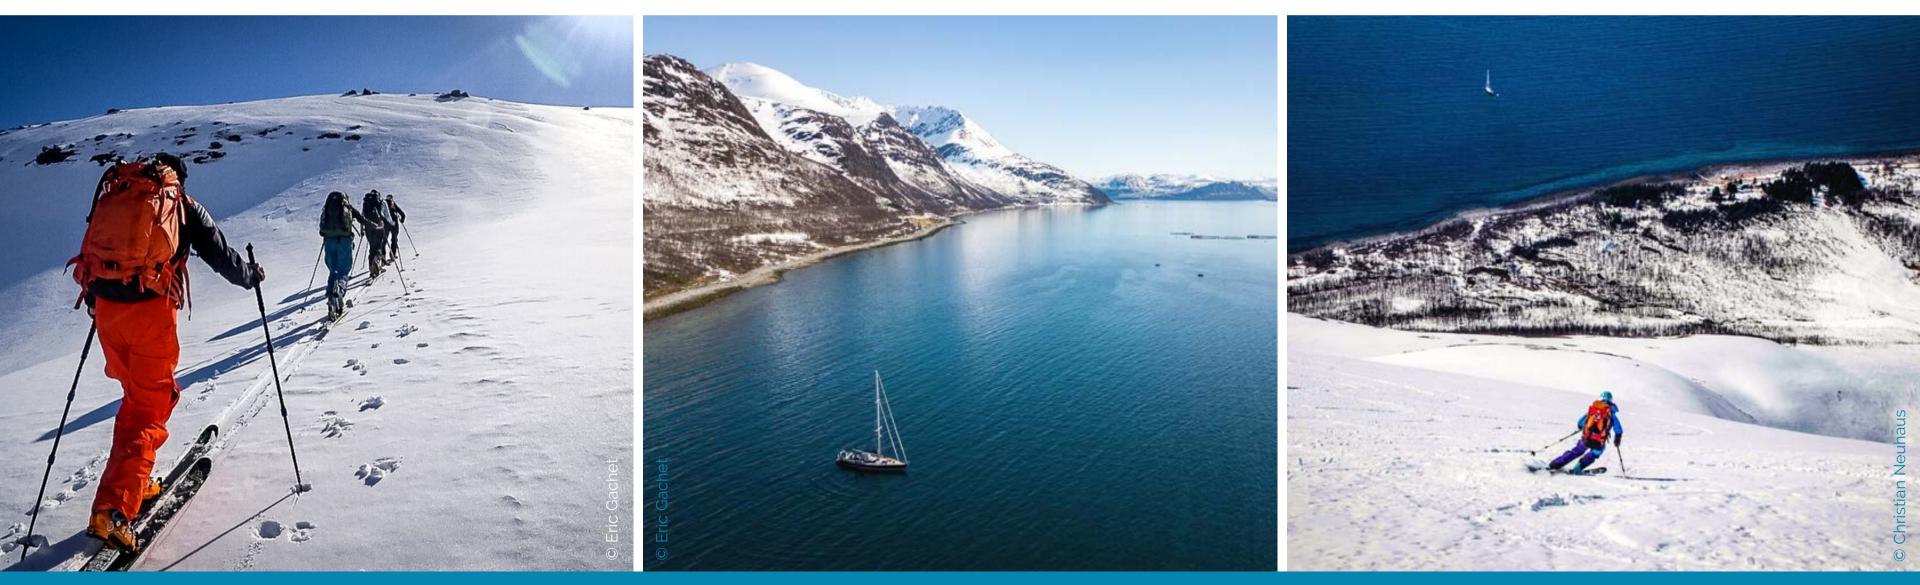

Ski Touring

WHY ABOARD A SAILING BOAT?

For a better immersion in the Great North, as close as possible to nature, without car, without neighbor, far from cities. Alone with Earth, Sea and Sky.

For the opportunity to be introduced to a dynamic Sailing experience with safety and comfort. It enhances the pleasure and enjoyment of the stay, while offering an alternative when the weather doesn't permit going ashore.

For the spirit of travel and adventure.

POLAR-SAILS

WHY ABOARD LEATSA?

For the privacy of a small group of 6 to 8 passengers maximum, accompanied by the captain, the mate and the high mountain guide.

For the quality of its cuisine, you won't stop talking about it.

For its saloon, a spacious area bathed in light, a cosy and friendly living space.

For its double cabins with real beds, duvets and pillows in natural fibers and en suite bathrooms including sink, shower and toilet.

For its bubble, real outdoor living room protected under a glass dome, which invites you to admire the sea, the land, the sky and its aurora borealis. Well protected under the bubble when the elements are raging around, it's exhilarating to be the privileged spectator of these games of sails, light, wind and waves.

For its exceptional quality of sailing, its reliability, its comfort and its specific preparation for cruises in the Great North.

For its French flag (RIF), a guarantee of quality and safety in the choice of its crew, equipment and procedures.
